

Employment Validate

What is this product?

This product is Place of Employment (POE) validation. Our skilled contact center agents call the place of employment that you have on file for a consumer, and manually verify that it is accurate and the information is for the right person.

Why do people use this product?

- Confirming employment details for wage garnishment
- Confirming employment details for credit risk management
- Verifying that a consumer still works at the same company

What will it do for me?

With Employment Validate, you will achieve an excellent ROI. As a result of using this product, clients have collected millions in returns. In addition to the financial returns, the product is TCPA-compliant. Employment Validate also increases efficiency for your company: our skilled employees perform the manual verification calls so you don't have to.
